

Charge to kickoff groups

We are suggesting to have three groups

1. **Climate Change and Hydrology**
2. **Land Cover and Land Use**
3. **Cryosphere**

Each group will be asked to formulate:

- **Key Science Questions**
- **What results are available?**
- **What should be done?**
- **Message to decision makers**

What we want as an output:

- **Statement of the Workshop**
- **Outreach message, e.g., *EOS* report**
- **Outline of peer-reviewed paper**
